

TO OUR PATIENTS WITH DENTAL INSURANCE

There are many different dental insurers, and each has several policies. The policies generally have different coverage, deductibles and provider networks. Each year, the policies can change, new ones are added, and some are discontinued. This makes it very challenging to know the details of each policy.

It's important to call your dental insurer to make sure our individual providers are in network for your plan. It will be important to identify which location you'll be seen at because, for a few insurers, the dentists at one practice may be in network, but not when working at the alternate practice. Please help us by taking the time to learn what your insurance does and does not cover, so you can advise us.

We will always advise you of the care you need and the best option for treatment. Your insurance may or may not have coverage for the recommended treatment.

New Hope

8500 42nd Ave. No. - New Hope, MN 55427

763-537-6070 - 763-537-6070 fax

Brooklyn Park
